

Dear Parents,

We are looking to bring our business further into technology. We are currently looking to update our web page and we are looking to highlight some of the activities that take place here at the center with some photos. On all our registration forms it states that parents give their permission for their child(ren) to be included in pictures connected with the program. We would like to use pictures of your children to show other perspective parents the fun, educational activities we provide here at A Place To Grow Too, LLC. We realize some of you may be hesitant but we promise you these photos will be solely for giving potential parents an insight of what the children experience at our center. Please sign the attached permission slip to acknowledge your permission. If you have any questions, comments and/or concerns please come see us.

Sincerely,

I, \_\_\_\_\_ hereby give permission for my child(ren)'s photo to be taken during activities connected with the center and to be posted on the center web page and solely used for the opportunity to shed insight of A Place To Grow Too, LLC's daily activities and educational intentions for potentially new parents.

\_\_\_\_\_ I DO NOT give permission for my child(ren)'s photo to be taken.
